About Muğla

Muğla Province lies in the southwest corner of Türkiye, where the Aegean Sea meets the Mediterranean. Its gulfs, bays and beaches, forests and the heritage of ancient Caria have made Gökova, Bodrum, Marmaris, Datça, Fethiye, Milas and Dalyan world-famous destinations along Türkiye's longest coastline (1,124 km, 19 marinas).

Muğla, the provincial capital, is a modern and peaceful city famous for its unique architecture — only an hour from Halicarnassos, Knidos, Kaunos, the Blue Lagoon and the Butterfly Valley, which attract some 3 million visitors a year. Each autumn thousands of students bring new energy to this growing centre of education and culture.
